

NJ 2-1-1 Partnership

CODE BLUE NOTIFICATIONS RECEIVED

When temperatures drop below freezing, and conditions pose a threat to individuals who are homeless or medically fragile, a network of agencies throughout New Jersey helps people obtain shelter, food and clothing.

During times such as these, county or municipal government will often initiate a Code Blue Alert which enables authorities to take homeless adults to shelter programs that have agreed to make additional beds available. Warming Centers are also opened during stated hours to provide residents with a place that they can go to warm up.

County Offices of Emergency Management together with county government will communicate Code Blue Alerts and the opening of Warming Centers through local media and social media outlets. Often this information is also posted on municipal and county websites. Additionally, many counties have started sharing this information with NJ 2-1-1. As we hear of locations that are available when a Code Blue Alert is activated, we will post the information here.

A Homeless Hotline for each county is also provided as a resource for assistance for those who are homeless. To find additional resources (beyond what is noted below) in your area, search our [resource database](#) using the search term: *emergency shelter*. To get further details on a county's homeless hotline and shelter, search using the term: *emergency shelter clearinghouses*. Learn more about housing alternatives in New Jersey by reading our [housing resource pages](#).
